## In the Claims

This listing of claims will replace all prior versions, and listings, of claims in the application:

## Listing of Claims

- 1. (Previously presented) A direct backlight module comprising:
- a first plate;
- a second plate connected to the first plate forming a space between;
- a plurality of light sources disposed in the space; and
- a third plate with a plurality of openings disposed outside the space, the third plate directly and conformally contacting the first plate along a substantial portion of the third plate and the first plate.
- 2. (original) The backlight module as claimed in claim 1, wherein the first plate comprises:
  - a plurality of protrusions; and
- a plurality of recesses, wherein the plurality of protrusions and recesses are alternately arranged, and the plurality of light sources are disposed in the plurality of recesses.
- 3. (Previously presented) The backlight module as claimed in claim 2, wherein the plurality of openings are disposed to align with the plurality of protrusions and form a plurality of channels.

- (original) The backlight module as claimed in claim 3, wherein the third plate comprises a plurality of flexible portions respectively connected to the sides of the channels.
- (previously presented) The backlight module as claimed in claim 3, further comprising an enforced heat dissipation device disposed at the channel.
- (original) The backlight module as claimed in claim 5, wherein the enforced heat dissipation device is a fan.

## 7. (canceled)

- (original) The backlight module as claimed in claim 2, wherein the cross-section of the plurality of protrusions and recesses is trapezoidal-shaped.
- (original) The backlight module as claimed in claim 2, wherein the cross-section of the plurality of protrusions and recesses is triangular-shaped.
- (original) The backlight module as claimed in claim 1, wherein the first plate is a reflector plate.
- (original) The backlight module as claimed in claim 1, wherein the second plate is a diffusion plate.

12. (canceled)

13. (original) The backlight module as claimed in claim 1, wherein the plurality of light sources are lamps.

14. (canceled)
